

Providing your business with a constant supply of clean and reliable power to prevent losses

WE PROTECT

YOUR BUSINESS CRITICAL POWER INFRASTRUCTURE FROM THESE...

CPS group is a Mission Critical Infrastructure company operating in USA, the Caribbean and Latin America. We have grown to a total solutions architect and service provider for the mission critical landscape. Our range of clients includes Healthcare, Telecoms, IT, Industry, and Power Generation.

We serve clients in the Small office enterprises, Medium enterprises and Large Corporations. We have managed large and complex engagements across the Caribbean and Latin America. Our team is highly skilled and is staffed by factory trained Field Service Engineers competent and proficient in the installation and maintenance of all the solutions we supply.

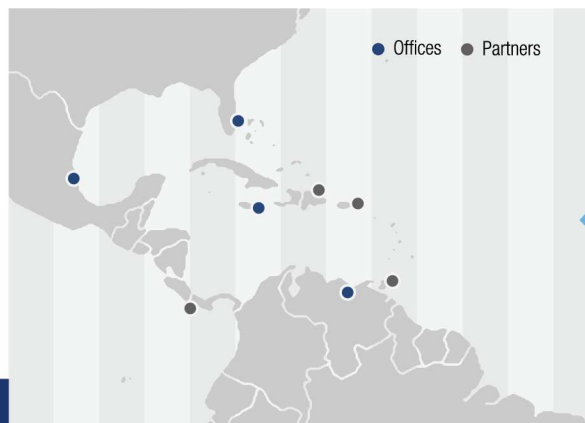

As an entity often charged with the installation of critical systems we are confident that reliable and efficient service delivery is of paramount concern to your organization. At CPS Group we are equipped with the products, skills and expertise required to expand, maintain, protect and optimize your investments. The team at CPS Group is keen to discuss with your infrastructure team, how we may partner with you to improve your service delivery and add value to your organization.
